Professional Summary

Full Stack Developer skilled in MERN stack with experience in building responsive web applications, REST APIs, and scalable backend systems. Strong in React.js, Node.js, Express.js, MongoDB and MySQL with hands-on project experience. Seeking an opportunity to contribute and grow in a professional development environment.

Technical Skills

- **Frontend:** HTML, CSS, JavaScript, React.js, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **ODM/ORM:** Mongoose, Sequelize
- **Developer Tools:** Git, GitHub, VS Code, Postman

Soft Skills

- Strong problem-solving skills
- Good communication skills
- Good team work skills
- Willingness to Learn

Projects

E-Commerce Website Busy Bean Coffee | Node.js, Express.js, MySQL, SequelizeORM **GitHub Repository**

- *Built a multi-role REST API (Admin, Customer, Local Partner) with JWT authentication, dynamic pricing engine, and automated partner profit distribution using Node.js, Express.js, and MySQL*
- *Integrated Stripe Payment Gateway with Connect (Express & Custom), ACH bank transfers via Financial Connections, webhooks, and automated profit transfers to partners*
- *Developed automated email notifications with Nodemailer and dynamic PDF invoice generation via Puppeteer across all order lifecycle events*
- *Implemented order tracking pipeline (Order Placed → Dispatched → Shipped), partner product assignment, inventory management, pagination, and reporting features*

Book Store Web Application | React.js, Tailwind CSS, Node.js, Express.js, MongoDB **GitHub Repository**

- *Implemented user authentication and authorization (Signup, Login, Logout) using secure authentication flow*
- *Built protected routes to restrict access to authorized users only*
- *Designed functionality for free and paid books/courses with dynamic content rendering*
- *Created a clean and responsive user interface for seamless user experience across devices*
- *Managed global state efficiently using Redux Toolkit*
- *Integrated RESTful APIs for smooth communication between frontend and backend*

Experience

Sigi Technologies **Lahore, Pakistan (February 2026 – May 2026)**

Position: Backend Developer Intern

- *Developed and maintained RESTful APIs using Node.js and Express.js*
- *Implemented pagination, filtering, and optimized database queries for better performance*
- *Worked with MongoDB / SQL databases for data management*
- *Debugged and resolved backend issues to improve system reliability*
- *Collaborated with team members to deliver scalable solutions*
- *Used Git for version control and code management*

Education

Bachelor of Science in Computer Science

Government College University, Faisalabad **DEC 2021 – DEC 2025**

- Relevant Coursework: Data Structures & Algorithms, Database Systems, Object-Oriented Programming, Web Design & Development
